### DAY 01 WEDNESDAY, AUGUST 8TH

#### TerraSync High Accuracy Field Data Collection

Designed for beginners as well as those looking for a deeper dive into field data collection, specifically on high accuracy devices running Trimble TerraSync.

*\* Can be taken as a standalone class for those who work primarily in the field, or taken along with Day 2 for the full start-to-finish work-flow.*

### 08/08 | COURSE OBJECTIVES:

- GNSS Fundamentals & how this Applies to your Application
- Basic Data Dictionary Creation to get you in the Field Quickly
- TerraSync Settings & Configuration
- Best Practices for the Collection of High Accuracy Data
- Field Data Collection Techniques Including: Nesting, Offsets, Averaged Vertices, Navigation, & Data Update

### DAY 02 THURSDAY, AUGUST 9TH

#### Trimble GPS Pathfinder Office for TerraSync

Designed for both beginners & intermediate users using GPS Pathfinder Office software along with TerraSync field software.

*\* Can be taken as a standalone class for those who work primarily in the office preparing and processing field data, or taken along with Day 1 for the full start-to-finish work-flow.*

### 08/09 | COURSE OBJECTIVES:

- Advanced Data Dictionary Creation
- Background Files in Pathfinder Office & TerraSync
- Basic TerraSync Data Collection
- Post-Processing
- Export to GIS or other Format
- Automating Data Processing
